TECHNICAL SKILLS

- **Proficient:** Automation, Autoscaling, Continuous Integration/Continuous Deployment, CSS3, Distributed System Design, Docker, Google Cloud, Git, HTML5, JavaScript, Jest, Linux, MongoDB, Next.js, Node.js, NoSQL, OpenAI Prompting, React.js, SQL, TailwindCSS, TypeScript, Unix, Rust, WASM (WebAssembly)
 - **Exposure:** Angular 5+, AngularJS, AWS, Bootstrap, CAD, Express.js, Firebase, Grunt, Gulp, Heroku, JIRA, Kubernetes, PHP, Prisma, Python, Redux, Unreal Engine
-

PROFESSIONAL EXPERIENCE

Cardano Goat | Software Engineer November 2021 - January 2023

- Developed WASM-integrated applications for seamless interaction with the Cardano blockchain, using technologies such as React, Next, TypeScript, TailwindCSS, Rust, WebAssembly, IPFS, and Cardano wallet extensions.
- Integrated cutting-edge open-source tools to stay ahead of the competition.
- Designed customer-centric products, ranging from 3D-rendered NFTs to web applications, with a strong focus on user experience.

Multiple Software Developer Contracts | Software Developer February 2020 - November 2021

- Utilized a wide range of tools including Angular, React, Wix, GoDaddy, Google, and Firestore, adapting to client requirements.
- Built full-stack websites from design wireframes, offering up to three revisions.
- Optimized website performance by implementing Google-Recommended improvements, reducing load times from 12 seconds to 1-3 seconds (90% faster). Even faster without CMS.

Proxify | Angular Developer October 2019 - January 2020

- Resolved a critical production login issue that prevented the whole app from functioning as the application.
- Building, maintaining, and optimized Angular 5 frontend around finding contract workers to jobs.

Therigy | Junior Software Developer February 2018 - April 2019

- Collaborated with cross-functional teams to build performant, user-centric web applications using AngularJS 1.6 and PHP.
- Maintained and upgraded three legacy software systems in PHP and AngularJS 1.6 for specialty pharmacy prescription and appointment management.
- Developed testing suites for Quality Assurance, boosting productivity by over 60%.
- Worked closely with the Quality Assurance team to ensure thorough testing and maintenance of software products.

Sky Pirates | Frontend Developer January 2018 - March 2018

- Fostered an inclusive and diverse work environment training new skydivers.
 - Building, maintaining, and optimized Angular 6+ frontend, achieving 85% on Google Lighthouse performance, and best practices scores.
-

PROJECT WORK

Cardano LSD | Software Developer | Github.com/CardanoGoat-io/cardano-lsd 2022

100% tested Styling & animation library for Cardano projects. In an effort to create better UX/UI on Cardano.

Create Cardano Dapp | Github.com/CardanoGoat-io/create-cardano-dapp 2022

CLI tooling to Auto Generate a Next.js, TailwindCSS, WASM Cardano Applications.

EDUCATION

Associates General Studies (Pursued 1.5 years in 2011),

Google Cloud Fundamentals: Core Infrastructure

Essential Google Cloud Infrastructure: Foundation

Essential Google Cloud Infrastructure: Core Services

Essential Google Cloud Infrastructure: Scaling & Automation

Architecting w/ Google Kubernetes Engine: Foundation,

Architecting w/ Google Kubernetes Engine: Workloads,

Grow with Google Scholarship: Mobile Web,
